Good day. I received an email about an opportunity for community members to provide input for the Capital Improvement Program in Baltimore County.

My name is Brenda Harney and I am the Director of a CDC named GLO or Greater Living Opportunities. We support the residents and local community association leaders for Baltimore Highlands, Lansdowne and Riverview, which are located on the SW side of Baltimore County.

Currently, we are working with BC Recreation and Parks to improve the walkway around Hillcrest Park. We have also requested for some other small projects up there as well, such as, remodeling the bathrooms, various benches throughout the park and pathway, new grills, and some other minor changes and/or additions. All of the community leaders and the association attendees fully back this request, and would like this project to move forward.

Our apologies for not attending the meeting in Towson on 10/15/2026, but the meetings are early and dont get off work till 530. Towson drive is quite a mess at that time of day.

Thanks for allowing us to voice our thoughts and look forward to working with Baltimore County to making the SW side of the county a better place. Have a good day and keep me posted
