Jennifer,

I am writing to request consideration as a capital budget request the replacement of the Cockeysville Police Precinct, 111 Wright Ave.

Opened in 1969, it was built just after the opening of the Baltimore Beltway. In the 1960's the area above the Beltway to the Pennsylvania line was primarily agricultural with limited residential development.

The building now nearly 60 years old has long been unable to adequately support the needs of the increased staff, specialized units, and increased enforcement. The needs of this precient are not just population driven but also driven by the week in and week out events at the Maryland State Fairgrounds.

The precient does not have adequate facilities for safely managing prisoners. The public lobby area is insufficient to meet the demands as efforts to shift call response to the desk and address walk-in service requests increase.

The roof leaks, the parking lot is in poor condition and the HVAC despite repeated repairs continues to be inadequate. The basement which houses the locker rooms, roll call room, and exercise room has almost nonexistent ventilation.

Please prioritize this request for funding.

Pamela K. Shaw
